CoARA ACTION PLAN

2024-2028

Kozminski University, a non-public institution located in Warsaw, was established in 1993, following the political and socio-economic transformation of 1989. Since its founding, the University has continuously expanded its educational and research capabilities in management, finance, and law.

As a comprehensive business university with academy status, it is recognized by the Financial Times as the leading private business university in Central and Eastern Europe. The high quality of education and research at Kozminski University is further validated by accreditations from AACSB, AMBA, EQUIS, and CEEMAN. The University

comprises 22 departments, 23 chairs, and 20 independent research centers, each coordinating scientific activities within specific research areas that contribute to broader academic disciplines. Kozminski University places a strong emphasis on developing research potential that positively impacts the economy and society.

A VISION OF CHANGES

IN THE SYSTEM OF RESEARCHERS AND SCIENTIFIC RESEARCH ASSESSMENT

Since 2017, the Academy has been awarded the HR Excellence in Research distinction by the European Commission, recognizing institutions that implement the Human Resources Strategy for Researchers (HRS4R) in line with the principles and guidelines of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

Ensuring the highest standards in recruitment, evaluation, and promotion of employees, in accordance with these principles, is crucial for the Academy. To this end, the university regularly reviews and updates the HRS4R action plan. Significant changes resulting from the implementation of the HR Excellence in Research action plan include:

1. Introduction of the Kozminski University Strategy for 2021-2030.
2. Establishing the principles of the Kozminski University Decalogue: professionalism, striving for perfection, global orientation, regional and local orientation, social responsibility, ethics, activity, pragmatism, and the university as a common good.
3. Developing and adopting the Code of Ethics of Kozminski University.
4. Appointment of the Ethics Committee and the Research Ethics Committee.
5. Introduction of the Sustainable Transformation Strategy of Kozminski University.
6. Ordinance on the principles, criteria, and procedure for the recruitment of academic staff based on the OTM-R (Open, Transparent, Merit-based Recruitment of Researchers) rules.
7. Introduction of the Gender Equality Plan.
8. Establishing the Twelve Principles of Social Responsibility for the University.

Kozminski University's vision in this area aligns with the CoARA Coalition, which the university joined this year to support international efforts in reforming the evaluation of scientific research, researchers, and research organizations. In the coming years, the university plans to develop new criteria, methods, and tools for assessment that meet the expectations of the academic community. Currently, the university is in the process of reviewing the existing rules for the periodic evaluation of academic staff to identify areas for improvement. This will enable the preparation of an assessment procedure based on both quantitative and qualitative indicators, taking into account the individual talents and competencies of researchers.

The university's vision is to build a Talent Ecosystem that focuses on selecting outstanding individuals while fairly recognizing the contributions of all researchers.

The Vice-Rector for Research and Staff Development has appointed

THE STEERING COMMITTEE FOR THE CoARA ACTION PLAN 2024-2028

composed of:

Prof. Paweł Korzyński, Vice-Rector for Research and Faculty Development | **Mariola Ciszewska-Mlinarič**, Vice-Rector for International Relations and ESR (Ethics, Social Responsibility), Dean of the College of Management | **Beata Chmura**, Head of the Research Results Reporting Team, Research and Faculty Development Office | **Marzena Cieślak-Żołądek**, Head of HR Office | **Kinga Nekanda-Trepka**, HRS4R and Scientific Impact Specialist

ACTION PLAN

ACTION 1.

AMENDMENT OF THE INTERNAL SYSTEM FOR THE EVALUATION OF SCIENTIFIC ACTIVITY

The aim of the action in this area is to improve system for the assessment of scientific activity at the university taking into account scientific disciplines and individual competences

No.	Task	Description	Time frame	Unit responsible
1.1	Verification	Analysis of elements taken into account in current system of research assessment in order to find a gaps	2025	Research and HR Development Office
1.2	Prioritization	Setting priorities for disciplines	2024-2025	Research and HR Development Office, Discipline Councils, Heads of Departments
1.3	Focus Groups	Meetings of focus groups for disciplines	2024-2025	Research and HR Development Office, Discipline Councils

1.4	Pilot evaluation	Preparation of a pilot evaluation of 1 discipline	2024-2025	Research and HR Development Office, Discipline Councils
1.5	Survey	Determining which indicators faculty considers as important in the assessment	2024-2025	Research and HR Development Office
1.6	Competences analysis	Identification of competences necessary to develop scientific work	2024-2025	Research and HR Development Office, HRS4R Team
1.7	Consultations	Consultations with academic staff to create an evaluation system based on quantitative data from OMEGA data base supplemented by qualitative data and other competences included as an important element	2024-2025	Research and HR Development Office
1.8	Talent Hunting	Defining unique competencies of academic staff and their importance	2024-2028	Research and HR Development Office

ACTION 2.

ACADEMIC STAFF SUPPORT

The aim of the activity in this area is to support the career development of academic staff at all levels from the moment they start their scientific work at the university

No.	Task	Description	Time frame	Unit responsible
2.1	Onboarding	The process of introducing a new researcher to the organization	2024-2028	Research and HR Development Office
2.2	Career Advice	Support for young scientists and postdocs	2024-2028	Research and HR Development Office
2.3	Individual Development Plan (IDP)	Creation of individual development plans , periodic evaluation of the implementation of IDP in order to identify areas to support the evaluated scientist	2024-2028	Research and HR Development Office
2.4	Survey	Collecting opinions of academics on onboarding, support and IDP	2024-2025	Research and HR Development Office

2.5	Research Results dissemination	Preparing a series of podcasts, short video and webinars to share research results	2024-2025	Research and HR Development Office, Marketing Department
2.6	Competences analysis	Identification of competences necessary to develop scientific work	2024-2025	Research and HR Development Office, HRS4R Team

ACTION 3.

BUILDING RESEARCH TEAMS

The aim of the activity in this area is to support academic staff in the process of building research teams, supporting joint initiatives and co-authoring publications

No.	Task	Description	Time frame	Unit responsible
3.1	KU scientists database	Creation of an internal database of researchers' disciplines, which is publicly available to KU scientists	2024-2028	Research and HR Development Office
3.2	Networking	Regular organization of Scientific Speed dating meetings aimed at exchanging information about current research and establishing cooperation between researchers	2024-2028	Research and HR Development Office
3.3	Integration meetings	Organization of meetings of departments, teams and the entire academic community	2024-2028	Research and HR Development Office

ACTION 4.

TRAININGS

The aim of the activity in this area is to increase the knowledge of academic staff in three areas: substantive, management and social

No.	Task	Description	Time frame	Unit responsible
4.1	Substantive targeted trainings	Identification and implementation of trainings necessary for faculty development depending on the individual needs of the researchers	2024-2028	Research and HR Development Office

4.2	Trainings improving management competences	Conducting trainings necessary to manage research teams for academic staff holding managerial positions	2024-2028	Research and HR Development Office
4.3	Trainings improving social competences	Conducting trainings to improve knowledge about ethics, broadly understood well-being, equality, counteracting mobbing and conflicts, etc.	2024-2028	Research and HR Development Office

ACTION 5.

OMEGA DATA BASE EXPANSION

The aim of this area is to have all the necessary information about the research activities and dissemination of research results of the unit in one system enabling easy reporting and statistics

No.	Task	Description	Time frame	Unit responsible
5.1	Expansion of the OMEGA data base in cooperation with the system supplier (SAGES)	Work on the development of a system allowing comprehensive management of information about science and supporting assessment processes of the university and its academic employees	2024-2028	Research and HR Development Office
5.2	Access to the OMEGA data base for researchers	Granting access to the OMEGA data base to academic staff in order to supplement information about publications and participation in national and international conferences	2024-2028	Research and HR Development Office
5.3	Preparations for the introduction of additional functionalities of the OMEGA data base	Planning the time frame and method of implementation of the 3 additional functionalities: Reports, Projects, Media	2024-2028	Research and HR Development Office
5.4	Cooperation with SAGES to implement OMEGA data base functionality called Reports	Implementation of the Reports functionality, enabling the generation of necessary statements by university academic employees and research related offices	2024-2028	Research and HR Development Office
5.5	Cooperation with SAGES to implement OMEGA data base functionality called Projects	Implementation of the Projects functionality, enabling researchers to enter data data on ongoing projects	2024-2028	Research and HR Development Office

5.6	Cooperation with SAGES to implement OMEGA data base functionality called Media	Implementation of the Media functionality, enabling the entry information about the dissemination of research results by researchers	2024-2028	Research and HR Development Office
5.7	Monitoring the operation of new functionalities in the OMEGA data base	Analysis and verification of data entered into the OMEGA data base by academic employees, checking the correctness of generated statements	2024-2028	Research and HR Development Office
5.8	Reports on the research activities of the institution	Creating comprehensive reports on the research activities of the unit	2024-2028	Research and HR Development Office
5.9	Surveys	Collecting feedback from OMEGA data base users	2024-2028	Research and HR Development Office

ACTION 6.

ACTIVE IMPACT ON DEVELOPMENT OF THE NATIONAL AND INTERNATIONAL SYSTEM OF SCIENTIFIC RESEARCH ASSESSMENT

The aim of the activity in this area is to regulate the issue of evaluation of scientific activity at the national level, taking into account the complexity of evaluation, reliability, openness and sharing knowledge among the academic community in Poland and abroad about possible changes in a way of evaluating scientific research.

No.	Task	Description	Time frame	Unit responsible
6.1	Establishing pathways of impact on academic community in Poland	Supporting the joint activities of Polish universities that have signed the CoARA agreement. Promoting new system for evaluating scientific research based on both quantitative and qualitative indicators, as a model for other universities that are not yet members of the coalition	2024-2028	Research and HR Development Office
6.2	Promoting abroad activities to shape research assessment system based on both quantitative and qualitative indicators, taking into account the individual talents and competencies of researchers	Kozminski University has joined the group of leaders of international alliances of European Universities (EUonAIR project) and as part of this project and other ongoing international projects will share the idea of CoARA among foreign academic communities	2024-2028	Research and HR Development Office

EXISTING TOOLS AND PROCEDURES TO SUPPORT THE EVALUATION SYSTEM:

- KU Repository
- Bibliometric reports
- Knowledge Base – an internal platform for employees to view all Rector’s orders, resolutions and regulations
- Web business cards - profiles of scientists and their achievements on the www.kozminski.edu.pl
- Policy of the Kozminski University
- Code of Ethics at Kozminski University
- Accessibility Strategy of Kozminski University
- Sustainable Transformation Strategy of Kozminski University
- Procedure for dealing with cases of inappropriate behavior for KU staff and students
- Strategy of Kozminski University
- Kozminski’s Decalogue
- Instruction for a new KU employee

MONITORING THE IMPLEMENTATION OF THE CoARA ACTION PLAN 2024-2028

The Steering Committee for CoARA, appointed by the Vice-Rector for Research and Faculty Development and responsible for implementing the action plan, convenes once per semester to review progress. Additionally, an external expert will evaluate the implementation results annually.

AUTHORITIES APPROVAL

The approval process for the Action Plan was comprehensive and multi-phased. Initially, consultations were held with representatives from various disciplines. Subsequently, the plan was presented to the Heads of the Discipline Councils. Following their review and feedback, the Action Plan was submitted to the Steering Committee. Upon receiving approval from the Steering Committee, the Action Plan was formally accepted and signed by the university authorities.
